POLICY OF HIS ADMINISTRATION

Outlined by President Taft in a Speech at Spokane.

CONSERVATION OF RESOURCES

Discussed at Length by the Chief Executive of the United States—Intends to Carry Out the Policies of Roosevelt, But Not Without the Authority of Congress—Speech Creates Enthusiasm.

Spokane, Wash., Sept. 29.—President Taft delivered here his long anticipated speech on the conservation of natural resources and outlined the policy of his administration on this subject of supreme importance to all the West.

Mr. Taft broadly took the stand that while the present administration is pledged to follow out the policies of Mr. Roosevelt, such a pledge does not involve him in any obligation to carry out these policies without congressional authority. The president added, however, that he would take every step and exert every influence upon congress to enact legislation which shall best serve the purposes and requirements of the situation.

President Taft created much enthusiasm when he announced that he would urge upon congress the necessity of authorizing the secretary of the interior to issue \$10,000,000 bonds for the completion of irrigation projects in the West upon which work has been suspended because of lack of funds and the discovery that the projectors in their enthusiasm did not closely observe the limitations of the reclamation act. Hardships have been worked upon many settlers through the suspension of work and Senator Borah of Idaho and other Western senators and representatives have urged upon the president that a bond issue was the only way by which justice could be done.

Mr. Taft declared congress did not intend that the government should undertake projects which could not be currently paid for out of the proceeds of the sales of public lands, but added that he has been impressed during his visit to the West of the necessity for immediate relief.

It was here in Spokane a little while ago that the national irrigation congress met and the Ballinger-Pinchot controversy arose. This controversy was fostered by the friends and adherents of the two officials, but not by the officials themselves.

Water Power Trust Alleged.

Secretary Ballinger was criticized by former Governor Pardee of California and others in the congress for having recommended and secured the reopening for entry of lands containing water power sites which had been withdrawn by Mr. Roosevelt. It was asserted that a "water power trust" had been formed to take up all these lands and that the strong conservation policy begun by Mr. Pinchot with the support of Mr. Roosevelt had practically been abandoned.

President Taft gave credit both to Mr. Pinchot and to Mr. Ballinger. He referred to the wonderful work of Mr. Pinchot and said that while that work had brought denunciation at first, it was now generally realized that the reforms inaugurated by Mr. Pinchot were not only necessary, but should have been begun ten years ago.

The president defended the reopening of lands by the present administration as a compliance with existing laws and declared Mr. Ballinger's views are in strict accord with those of the administration, and that he has been helpful and will use his powerful influence as secretary of the interior to support the president in securing congressional action that will put the Roosevelt policy of conservation on a firmer basis. Mr. Taft stated that 4,700,000 acres of water power lands withdrawn from the general entry by the last administration has been reduced to 450,000 acres under the present administration. The latter number, however, he pointed out, contain more ascertained power sites than did the original withdrawals.

The president further stated it must be understood that these withdrawals are only temporary to permit congress to act upon a recommendation he will make that the government be authorized to grant or lease power sites to private concerns, to be developed under general government control and supervision. If congress fails to act upon this recommendation the president says he knows of no way in which the withdrawals can much longer be withheld from claims filed under the general land laws.

Mr. Taft opposed the suggestion

that settlers should be allowed longer than ten years in which to repay the government for water secured through governmental irrigation projects.

TWO MINERS DIE IN CAVE-IN

Efforts to Recover Them Before Suffocated Proved Futile.

Duluth Sept. 29.—The Albany iron mine on the Mesaba range claimed two lives when Joseph Stofink and Peter Slovoreska were buried by a cave-in. The men were miners and unmarried. Haste was made to recover the men in the hope that life might be saved.

German Evangelical Synod.

Burlington, Ia., Sept. 29.—Aside from the election of officers, the general conference of the German Evangelical synod of North America did much to forward the interests of its educational enterprises. All officers were re-elected, except treasurer, Rev. Henry Bode of East St. Louis succeeding Rev. H. Wolf in that office.

WOMAN KILLED IN AUTO ACCIDENT

Another Woman Painfully Hurt and Child Badly Injured.

St. Paul, Sept. 29.—Miss Blanche Lord, 2449 Dupont avenue south, Minneapolis, was killed, her housekeeper, Mrs. Mitchell, was painfully bruised and Gertrude Mitchell, eleven years old, the daughter of Mrs. Mitchell, sustained a broken hip when a large touring car in which they were riding was wrecked on the White Bear road. Miss Lord, who was forty years old, and who once lived in St. Paul, died on the way to St. Joseph's hospital, to which she was being brought in an automobile owned by George Koehler, which happened along shortly after the accident. The little girl also was picked up by a passing machine and taken to the same hospital.

While going at a good gait, Miss Lord's chauffeur, a negro, Dell E. Ware, 3648 Columbus avenue, Minneapolis, turned out of the road to avoid an approaching farmer's wagon. The machine ran into a ditch and two wheels were wrenched off. Miss Lord, in the meantime, became frightened and tried to leap from the car. Her dress caught on the machine and she fell beneath the running gear. In this position she was dragged for several feet. Farmers who came to the rescue had to cut away some of her clothing to extricate her.

The chauffeur disappeared immediately after the accident and has not been located.

DICKINSON GETS A MEDAL

War Secretary Decorated for Heroic Act of Years Ago.

Washington, Sept. 29.—An almost forgotten incident, in which the present secretary of war, Jacob M. Dickinson, heroically rescued James F. Joy, a Detroit lawyer, from the Detroit river fourteen years ago, was recalled when a handsome gold medal, suspended from a ribbon held in the beak of an American eagle, was presented to Mr. Dickinson on behalf of the United States government.

On Aug. 29, 1895, the American Bar association, then in session at Detroit, was entertained at St. Clair flats. The guests were conveyed there in steam yachts. It was very dark when, in attempting to cross the landing place, James F. Joy, the oldest member of the Detroit bar, fell overboard. Judge Dickinson plunged into the river and rescued Joy. Close by on other yachts at the time were Judge Taft, now president, and Associate Justices Brewer and Brown of the supreme court of the United States.

Federal Department of Mines.

Goldfield, Nev., Sept. 29.—The creation of a federal department of mines was urged by Senator Francis G. Newlands of Nevada before the American Mining congress. A resolution calling for the organization of a federal mining department was presented and adopted. An address by James A. Heckman of New York on the silver question created much interest.

Absentminded.

"Wilkins is the most absentminded cuss I ever met."
"How so?"
"The last time he got in the barber's chair he pinned the newspaper around his neck and began to read the towel."
—Philadelphia Record.

MAYOR HEADS GREAT PARADE

McClellan Leads Brilliant Pageant in New York.

TWENTY THOUSAND IN LINE

And More Than Two Million Spectators Viewed the Passing Show.

Epoch-Making Scenes of Three Centuries Represented by Gigantic Figures on Floats—Parade as Democratic as It Was Historical.

New York, Sept. 29.—Through streets ablaze with bunting and lined with the greatest crowd ever gathered in New York thoroughfares, a parade of 20,000 men and fifty-four floats passed before the envoys of twenty-one nations participating in the Hudson-Fulton celebration. And in its passing, which occupied two hours' time, were reviewed the epoch-making scenes of three centuries, represented in gigantic figures of wood, plaster, paint and tinsel.

After a day and a night of rain, the skies cleared, the sun came out and with just enough crispness in the air to add zest to the crowd, the most spectacular land feature of the celebration was held without an untoward incident.

From One Hundred and Tenth street and down Fifth avenue to Washington square in the lower part of the city—the route of the parade and a distance of over five miles—it is estimated that more than 2,000,000 people gathered.

As a parade it was as democratic as it was historical, as cosmopolitan as it was democratic. Mayor George B. McClellan and Herman Ridder, vice president of the Hudson-Fulton celebration commission, headed the line and covered the entire distance afoot. There was no military show, no distinguished personages in vehicles, all with the exception of the platoons of mounted police, were afoot.

A bit of confusion at the start of the parade put a number of the floats out of their order so that in some instances the historical sequence was considerably upset, but the good natured crowd did not mind this. A number of the patriotic scenes were wildly cheered.

Sherman Reviews Parade.

It was before a distinguished gathering, seated in a court of honor on the grounds of the new public library at Forty-second street and Fifth avenue, that the paraders passed. Vice President James S. Sherman was flanked on either side by the Admirals Lepard and Seymour of the French and English squadrons, respectively. Governor Hughes, Seth Low, Prince Kuni of Japan and the German grand admiral, Von Koester, were seated near by. Others in the official reviewing stand were Rear Admiral Seaton Schroeder of the Atlantic fleet, and his staff, Major General O. O. Howard and Supreme Court Justice Brewer.

Tammany, with 1,000 stalwart members in "Prince Alberts" and high hats, made a picturesque showing. Squads of school children, New York university, Columbia, City college and Rutgers' college students, members of Irish, Italian, French, Scotch, Swedish and other cosmopolitan societies followed and behind them came others and others, seemingly without end.

With the end of the parade at Washington square, the crowd broke out of bounds and swarmed back and forth across the square, literally storming the floats in an effort to get souvenirs. It necessitated military severity on the part of the police to save the creations from being torn to pieces.

The police had never before been called upon to handle so large a crowd, but acquitted themselves with credit, for the line of march was kept well cleared and in the crushes there were only minor accidents.

More than 6,000 sailors from all the ships now assembled in New York harbor attended the performance at the hippodrome as the guests of the Hudson-Fulton commission.

Dr. Frederick A. Cook, the explorer, Governor Hughes of New York and Governor Fort of New Jersey were among the guests at a banquet tendered by the citizens of uptown New York to distinguished visitors at the celebration.

Boys Find Their Mother's Body.

Detroit, Sept. 29.—Joe Yax, thirteen years old, and his brother Scot, eleven, grandsons of Joe Bedore, a St. Clair flats resort keeper, chased a floating bundle of clothing near the resort and with their rowboat towed to shore their mother's dead body. Physicians said that the woman died of heart disease before falling into the river.

Ladies' Home Journal Pattern No. 4612

American Fashions

For American Women

Something new but long wanted and the Home Pattern Company is the first to supply this want.

Most American women want styles that are adapted to them regardless of Parisian dictates and these styles are now to be secured in the Ladies' Home Journal Patterns. As would be expected, these styles possess much simplicity which does not exclude elegance.

"MICHAEL'S"

A 15c PATTERN AND A 25c MAGAZINE 20c FOR BOTH

The Quarterly Style Book illustrates the best of American styles as well as the Paris creations. It contains about 1500 illustrations of garments. These are not all women's garments but garments for every member of the family.

It is so complete in every detail that it covers every want a woman desires of a Fashion Magazine and the cost is trivial. The book is on sale at our counters.

"MICHAEL'S"

HAD RIGHT TO KILL WIFE

French Jury Acquits Man Who Heeded Plea of His Spouse.

Paris, Sept. 29.—A man whose wife is dying of an agonizing disease is justified in killing her to put an end to her suffering if she implores him to do so.

So a jury decided in the court of assizes here, and acquitted Edmond Baudin, who, at her prayer, shot and killed his wife on Jan. 31, last.

Mme. Baudin had been afflicted with asthma for years. It gripped her throat. It was a weight on her lungs. It stopped her breath. She begged her husband to kill her to rid her quickly of the affliction that was slowly throttling her.

Baudin, a mechanic, thirty-nine years old, a rough and plain spoken man, sought to justify his act with words as straightforward as they were dramatic. Tears streamed from his eyes while he testified. The jurors also wept, and the women in the courtroom were semi-hysterical.

As Baudin left the courtroom a freed man the crowd applauded him.

Find Bodies of Soldiers.

Melilla, Sept. 29.—A detachment of Spanish troops searching the gorges of Mount Guruga found the bodies of over 100 Spanish soldiers and several officers who were killed in the fighting between Aug. 23 and Aug. 27.

Wind Prevents Flights.

New York, Sept. 29.—A high wind, which frequently blew more than twenty miles an hour, prevented Wilbur Wright and Glenn H. Curtiss from making flights in their aeroplanes.

THINK THEY HAVE SOLVED MURDER

Philadelphia Detectives Arrest a Suspect.

Philadelphia, Sept. 29.—In the arrest of Reuben Conn, detective believe they have solved the mysterious holdup and double murder which occurred in the saloon of Patrick J. Quinn. Three men were shot by the masked robber, two of whom have since died.

The dead men are Henry S. Saylor, a bookkeeper, and James Quinn, an elevator constructor, son of the saloonkeeper.

John J. Cassidy is in a hospital with a bullet wound in the leg.

After emptying the cash register the robber fled.

According to the story told by Cassidy, Conn was in the saloon until 10 o'clock. Half an hour later a man wearing a mask entered, carrying a revolver in his hand, and commanded young Quinn to hand over his valuables. Quinn started to comply when the robber leaned over the bar and shot him in the abdomen. He then shot Saylor below the heart. Cassidy started to escape when a third shot passed through his leg.

Saylor, although fatally wounded, ran from the place and in some mysterious manner succeeded in reaching his home, nearly two miles away. He was only able to tell his wife that he

had been shot by a robber before he lapsed into unconsciousness. He was removed to a hospital, where he died. Quinn died shortly after his removal to a hospital. Conn denies that he knows anything of the shooting and says that he did not return to the saloon after leaving it before the shooting.

STEWART SUCCEEDS DICK

Chosen President of the National Guard Association.

Los Angeles, Cal., Sept. 29.—The National Guard Association of the United States selected St. Louis as the place for its convention in 1910 and elected officers as follows:

President, General Thomas J. Stewart, Pennsylvania; secretary, General Charles I. Martin, Kansas; treasurer, General J. A. Storch, Nebraska.

The vice presidents include General K. F. Wood, Minnesota, and General J. C. McGuerrin, Michigan.

Senator Dick of Ohio declined reelection as president.

General Stewart, the new head of the association, was a former commander-in-chief of the G. A. R. and adjutant general of Pennsylvania.

Bismarck's Comment.

Prince Bismarck was once pressed by a certain American official to recommend his son for a diplomatic place. "He is a very remarkable fellow," said the proud father. "He speaks seven languages."

"Indeed!" said Bismarck, who did not hold a very high opinion of linguistic acquirements. "What a wonderful head waiter he would make."

WEATHER FORECAST

Generally fair tonight and Thursday, except probably showers in extreme northwest portion Thursday. Warmer Thursday.

Mayor Lawler, of St. Paul, is considered the probable candidate of the democratic party for governor at the next state election.

The political column of the Minneapolis Tribune says that a speaker-bloom is being started by Representative Elmer Kling of the 48th district.

The Adam and Eve story is now denied and a Chicago professor says the trend of society is toward polygamy. The Chicago professor has been seeing things.

Bemidji is endeavoring to raise, by popular subscription, a sufficient amount with which to buy the right away through that city in order to secure the Soo road.

The proposed new charter providing for a commission form of government failed to carry at Mankato by 24 votes, and its defeat is laid to the activity of the saloon element.

A new town is being built on the M. & I. road between Hubert and Nisswa and as the distance between the two already recognized stations is short, the Pequot Enterprise wonders if the trains will have to back up to whistle for the new town of Boruszak, owing to the fact that the railroad regulations require that the engine of any train shall whistle one mile away.

The board of managers of the Minnesota state fair have a world's fair in view at Hamline. At least this is the news that comes from Seattle where the gentlemen are getting ideas. John J. Furlong, first vice president, in an interview, says it is the intention to announce an international exposition, using the present equipment as a nucleus. Minnesota has certainly a good start if that is what is on the minds of the gentlemen behind the proposition.

The destruction of the dam at Fergus Falls that furnished the electric power has had a tendency to put the public next to how much they depended on the electric current for the necessities of the every day life. The Journal says "It is hard to even get your teeth filled; the picture shows can't run; the stores will have to resort to lamps; every printing office has had to resort to hand type setting; the automobile shops, blacksmith shops, shirt and skirt factory, are all put out of business.

It seems that the recent order of the government closing all saloons in Walker, Cass Lake and other Cass county towns, is not to be obeyed without a contest, as will be seen from the Cass Lake Times: "We do not care to discuss the order recently issued by the Indian department, but cannot refrain from doubting the validity of their act. We are not and have not been for almost twenty years an Indian reservation; the cession of these lands in 1889, by which the Indians parted with all rights to the soil, places us in the same condition as we would be in other parts of the state and to be governed by state laws. If our dealers in intoxicants have been guilty of selling or giving to Indians, there is a remedy under the state law, and our state officials are willing and ready, upon complaint, to prosecute all the guilty. The order of the Indian department is an insult to the dignity of the state and a farce. When it can be established that prohibition prohibits The Times will be as ready as the most zealous patrons of that cult to embrace it, but until then we shall adhere to the idea that it is better to control a questionable feature of political government than to drop back into a state of anarchy and confusion."

Neptune.
Neptune takes over 100 years to make one complete revolution round the sun.

TIME TO ACT

Don't Wait for the Fatal Stages of Kidney Illness. Profit Brainerd People's Experiences

Occasional attacks of backache, irregular urination, headaches and dizzy spells are common early symptoms of kidney disorders. It's an error to neglect these ills. The attack may pass off for a time but return with greater intensity. If there are symptoms of dropsy, puffy swellings below the eyes, bloating of limbs and ankles, or any part of the body, don't delay a minute. Begin taking Doan's Kidney Pills, and keep up the treatment until the kidneys are well, when your old health and vigor will return. Cures in Brainerd prove the effectiveness of this great kidney remedy.

Mrs. B. F. Hannon, living at 506 Elm St., N. E., Brainerd, Minn., says: "Mr. Hannon has been greatly benefited by using Doan's Kidney Pills. His kidneys were in a disordered condition for a long time and he suffered intensely from pains in his right side and across his hips. His case was diagnosed by a physician as kidney trouble and despite the use of their medicines he gradually grew worse. He was scarcely able to work in fact he could not rest well at night on account of the dull aching in his back. The use of a few boxes of Doan's Kidney Pills, procured from H. P. Dunn's drug store helped him a great deal and I take pleasure in recommending them as an excellent remedy for all complaints arising from disordered kidneys."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name, Doan's, and take no other.

Expensive Hotels.

Probably the most expensive hotels in the world are those at Manaus, 1,000 miles up the Amazon. They are extremely ill kept, yet the daily rate is \$9 gold and \$18 for a room with bath. Eggs cost 15 cents each, milk 75 cents a quart bottle.

Three Tightwads.

Speaking of tightwads, a Texas paper says: It is reported that three of the stingiest men in the state were in town yesterday. One of them will not drink as much water as he wants unless it is from another man's well. The second forbids any of his family from writing anything but a small hand, as it is a waste of ink to make large letters. The third stops his clock at night in order to save wear and tear on the machinery. All of them decline to take their county paper on the ground that it is a terrible strain on their spectacles to read newspapers even in the daytime.

Piles

We are so certain that Itching, Bleeding and Protruding Piles can always be relieved and absolutely cured by this ointment that we positively guarantee satisfaction or money refunded.

616 Laurel St. Brainerd, Minn.

ANDREW E. VEON
DIED THIS MORNING

All Known Brainerd Citizen Passed
Away at St. Joseph's Hospital
After Short Illness

AD LIVED HERE MANY YEARS

as a Veteran of Civil War, Son of
Veteran and Member of the
Masonic Fraternity

Andrew E. Veon, an old soldier
and a resident of Brainerd for about
forty years, died at St. Joseph's hos-
pital this morning. Mr. Veon has
been in poor health for many months,
but he has never had good health
since his service during the Civil
War, but had only been confined to
his bed less than a week. He was
brought to the hospital on Friday and
was unconscious most of the time
until his death. He leaves one son
and one daughter, in California, and
a divorced wife, also of California,
but had no relatives here and was
cared for in his last sickness by the
local Masonic lodge and Grand Army
of the Republic.

Mr. Veon was also a member of
the Sons of Veterans and had held
the offices in the local camp of
that order.
No funeral arrangements have been
made as yet, but it is expected he
will be given Masonic burial by Au-
tumn Lodge, No. 100, A. F. & A. M.,
which he was a member. He was
a jeweler by trade and for many
years was in business in this city.
His son was notified by wire this
morning and no announcement of the
funeral will be made until he is
heard from.

Johnson Memorial Fund

The following contributions have
been received by The Daily Dispatch.
Previously acknowledged— \$12.00
Gold Christiansen— 1.00
Mrs. Hietala— 1.00
Mrs. Fremling— 1.00
O. H. Gardner— 1.00
J. Frisch— 1.00
M. Reilly— 1.00
S. Swanson— 1.00

JOHN ALBERT JOHNSON
MEMORIAL FUND

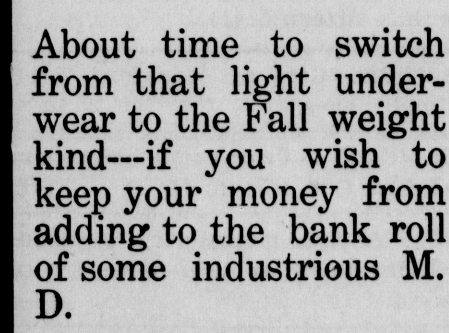

To The Brainerd Dispatch:
Inclosed herewith please find
ONE DOLLAR (or less) as a con-
tribution to the fund to be used
for the erection in the state capitol
of a monument to John Albert
Johnson, late governor of Minne-
sota.

Wouldn't Tell.

Her—Why on earth do they call him
the paying teller? Him—Because that's
his job. Her—But it isn't. I asked him
how much you had in the bank and
he gave it to me, and he wouldn't
tell and he wouldn't pay.—Cleveland
Main Dealer.

When Your Joints are Stiff

When your muscles are sore from cold or rheuma-
tism, when you slip or sprain a joint, strain your
muscles and fix you right in a jiffy. Always have
with you and use it freely. The oldest, the
safest and the best medicine for internal and
external aches and pains in man is Perry Davis'
Liniment, and for over seventy years it has been
a great standby for emergencies in thousands
of families all over the world. Don't go home
without a 50c. or one of the new size, 35c bottles.

About time to switch
from that light under-
wear to the Fall weight
kind—if you wish to
keep your money from
adding to the bank roll
of some industrious M.
D.
We've anticipated your
demands with just the
kind that will not make
the change a hardship
on account of a tender
skin—Its our Medium
wool at \$1.00 the gar-
ment. All sizes.
The McKibben Hat—
A Crown of a \$3 hat.

COMMENCE LAYING STEEL

Work on Tracklaying From Moose
Lake towards the Cuyuna Range
Has Already Commenced
Aitkin, Minn., Sept. 29—The rail-
road contractors are making good pro-
gress on the Cuyuna Iron Range road
track laying has been started out
from Moose Lake coming this way.
It is 20 miles from that point to the
new junction town of Lawler and the
rails will be pushed right along to-
ward Aitkin and the mines from
there. The work will be done by a
track laying machine and some of the
contractors are getting a little nerv-
ous about getting their work out
of the way before the big machine is
upon them. Grading on the west
end is taking a great spurt with three
steam shovels just coming onto the
work. These have been taken across
country together with a lot of equip-
ment, on the highway from Cedar
lake to the new line by laying their
own track before them and pulling
it up after it is passed over and then
pushing it on ahead again. It is
stated by one of the firm of Dale &
Baumgarten that it will cost them
\$7,000 to get onto the ground be-
fore a shovelful of dirt is handled.
At the western junction a big grader
is at work leveling off yard room
and it is said that when everything
is working favorably, a wagon is
loaded every minute, the teams fol-
lowing in order one after the other
under the big conveyor.

HOW TO GET FAT

Use Samose, Says H. P. Dunn and
Put on Good Flesh
The almost universal interest in
physical culture is the best evidence
that can be offered as to the need of
a simple and scientific method of
making thin people fat, increasing
strength and restoring the health.

Athletics, when carried to an ex-
treme, often result in straining the
vital organs. How much better it
would be for the average person to
regain health, strength and flesh by
using Samose. This flesh-forming
food is assimilated as soon as it
enters the stomach; it helps the or-
gans to assimilate the food and ex-
tract the flesh-forming elements; it
builds up the muscles and rounds out
the limbs into shapely plumpness.
Samose has been so successful in
making thin people fat, and restoring
the weak and run down to strength
and health, that H. P. Dunn, the
popular druggist, sells it under his
positive guarantee to refund the
money if it does not benefit.

BODY WENT ESTRAY

Through Error at Bemidji the Re-
mains of Boy Drowned There
Were Held Here Over a Day

A pathetic incident occurred in
railroad circles here this week. Otis
Heckerson, a lad of about eight years
of age, was drowned in the Mississippi
river at the power dam near Bemidji
on Saturday last and the body pre-
pared for shipment to Ulin, Minn.,
for burial. Through some error of
the shippers at Bemidji, the body was
placed on the Minnesota & Inter-
national south bound train Sunday
night and taken through to Little
Falls without a shipping permit.
The Northern Pacific railroad officials
refused to accept it and it was
brought back to Brainerd, the end
of the run, and remained here until
Tuesday noon, when shipping papers
came from Bemidji and the remains
were sent to Ulin by express for
burial.

Ways of the Chinese.
British manufacturers of blacking
purchase large crates of beeswax. The
beeswax imported from China is in
large cubes, each done up in a written
guarantee of purity and quality. Nev-
ertheless, deep down in the middle of
the crates are lumps of a substance
resembling European brick, trimmed
to the exact shape of a genuine packet
of beeswax. In other cases cubes
when unwrapped are still apparently
genuine wax, but on being sliced open
are found to contain a large core of
shavings, dirt and general floor sweep-
ings of a busy factory.

COMMERCIAL CLUB
FAVORS GAS PLANT

Several Matters of Importance were
Discussed at the Club Meeting
Tuesday Evening

RIVER IMPROVEMENTS DISCUSSED

Minneapolis Firm Makes Proposition
to Bring Their Gasoline Engine
Works to this City

A meeting of the Commercial Club
was held Tuesday evening at which
time several matters of importance
were discussed, among which was
that of inducing the government to
put some work on the Mississippi
river at this point in the way of
cleaning it and making it navigat-
able. There is a large trade north
of the city that would come to
Brainerd if the river was in such con-
dition that boats could ply to and
from the up river points. In the way
of farm products there is no outlet
to market for many of the farmers
and they do not raise the stuff that
could be marketed, that they would
if the matter of transportation was
solved. This is true of the fuel in-
dustry, and Brainerd would furnish
a market for cord wood, etc., if it
could be landed here at the small
expense attached by river navigation.
After a thorough discussion, the
president and secretary were in-
structed to forward a resolution to Con-
gressman Lindbergh requesting his
cooperation along these lines.

A communication was read from a
Minneapolis firm in which they stated
that they were looking for a location
in this vicinity. They manufacture
portable and stationary gasoline en-
gines and claim to have work enough
in sight to keep a factory busy for
some time to come, and that the
business is such that it necessitates
the enlarging of their plant and an
increase in capital. The location
here was practically what they want-
ed, as it is nearer to the market where
they sell their engines. Fifty men
would be employed to start with and
increased as the business developed.
The matter was taken under advisement.

The matter of the coming of the
Shriners to this city in December,
was brought up by A. J. Halsted, and
the club adopted resolutions which
will be forwarded to the officers of
Zurath Temple, Minneapolis, extend-
ing the hospitalities of the city and
a warm welcome on their visit.

The question of the advisability of
the establishment of a gas plant in
the city was brought up and dis-
cussed, and it was the sense of the
club that the time was ripe for the
consideration of such a project before
the street improvements were per-
fected, and as a matter of fact, if the
matter is to be considered favorably,
the work of laying mains, etc., should
be done at a time when it will not
be necessary to disturb paved streets
to a greater extent than possible.
The advantages of gas for heating
and cooking purposes was thoroughly
gone over, and the question of com-
petition between the city lighting
plant and a gas plant was discussed
and it seemed to be the general op-
inion that as far as the lighting pro-
ject was concerned, it would not
have a tendency to reduce the busi-
ness of the city in that line to any
extent, and especially to the extent
that some have thought. The talk
was along the line that the plant
was necessary and either a municipal
plant or a plant owned by a stock
company should be agitated, the idea
being that the benefits derived from
it should be offered the people of this
city more than as to whom should
own the same. A motion was finally
made and carried instructing the
president of the club to appoint a
committee of three to canvas the pro-
position, and if sufficient encourage-
ment was met with, to ask the coun-
cil for a franchise to get the matter
started.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot
reach the diseased portions of the ear.
There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed
condition of the mucous lining of the Eusta-
chian tube. When this tube is inflamed
you have a rumbling sound or imperfect
hearing, and when it is entirely closed,
Deafness is the result, and unless the
inflammation can be taken out and this
tube restored to its normal condition,
hearing will be destroyed forever; nine
cases out of ten are caused by Catarrh,
which is nothing but an inflamed con-
dition of the mucous surfaces.
We will give One Hundred Dollars for
any case of Deafness (caused by
catarrh) that cannot be cured by Hall's
Catarrh Cure. Send for circulars free.

pation.

Open Thursday Evenings

The Dispatch office is open every
Thursday evening, and parties find-
ing it inconvenient to call during
the day time on business, can always
be sure to find someone in the office
on that evening. dw-tf

EXAMINATION ANNOUNCEMENT

And Information Concerning Ap-
pointments in the Thirtieth
Decennial Census

An examination for employment in
the additional force for the thir-
teenth census at Washington, will be
held by the United States civil ser-
vice commission on October 23, 1909,
at Crookston, Duluth, Fergus Falls,
Mankato and St. Paul, and applica-
tion blanks and information may be
obtained by addressing the secretary
of the board of examiners at the latter
place and of the civil service com-
mission at Washington. Applicants
must be citizens of the United States
and be between the ages of 18 and
50 years. The examination will consist
of:

Spelling—20 words of average dif-
ficulty in common use.

Arithmetic—consisting of vertical
and cross addition, percentage and a
simple exercise in tabulation.

Letter writing—a letter of not
less than 125 words on some subject
of general interest, competitors to
select one of two subjects given.

Penmanship—The handwriting of
the competitor in the subject of copy-
ing from plain copy, will be con-
sidered with special reference to the
elements of legibility, rapidity, neat-
ness, general appearance, etc. Copy-
ing from plain copy—a simple test
in copying accurately in the competi-
tor's handwriting a few printed lines,
including tabulated matter. The
time consumed in examination.

Applications for positions of enu-
merator, supervisor's clerk or inter-
preter, should be addressed to the
supervisor of the district in which the
applicant seeks employment.

Every Hour of the Day

M. K. Swartz, the reliable druggist
of Brainerd, is having calls for "HIN-
DIPO," the new Kidney Cure and
Nerve Tonic that they are selling
under a positive guarantee.

Its merits are becoming the talk
of the town and everybody wants to
try it, and why not? It costs nothing
if it don't do you some good—not
one cent.

They don't want your money if it
does not benefit you, and will cheer-
fully refund the money. Try it today.

GATHERED HERE AND THERE

Effect sometimes follows cause very
quickly. The last issue of the Pub-
lishers' Auxilliary contains a want
adv. offering for sale a paper at
Deerfield, Kan., on the ground that
the field will not support a socialist
newspaper. In the news columns
of the same paper is an account of
C. R. Oakfield, a socialist editor at
Deerfield, having been hanged in
effigy there and also of his having
been egged off the streets of Lakin,
Kearny county, for his attacks on
President Taft. Not much wonder
that he wants to sell out.

Magazine writers are hailing as
something entirely new the appear-
ance of a cross bred animal, half
buffalo and half domestic animal.
The writer saw animals of this class
nearly ten years ago. They were
shipped into northern Iowa with a
load of range cattle. One of them
was used for a barbecue in a big blow
out at Eagle Grove, Iowa, and another
was butchered and sold at Sioux
Rapids, Iowa. They did not appeal
to stockmen there as having any ad-
vantage over the pure bloods, be-
cause of the fact that they were very
vicious and hard to keep within
bounds.

Another cross-bred animal that has
just been developed, is as yet un-
named, but the name zebra has
been suggested. The creatures, and
at present there are but two in ex-
istence, are sucking colts and are the
result of a cross between the royal
zebra and a Texas burro. The ani-
mals are the property of the United
States department of agriculture, the
sire having been presented to Presi-
dent Roosevelt some years ago and by
him turned over to the department.
It is not known as yet whether this
hybrid will reproduce itself and so
create a new race, or remain sterile
like the mule.

RUGS—Just received my fall stock
of rugs, lace curtains and portiers.
I sell on easy terms. W. S. ORNE tf
If your sewing machine needs
cleaning or repairing, see Orne about
it. 98tf

Titles in Spain.

The assumption of a title in Spain,
whether inherited or conferred, en-
tails the contribution of a lump sum
to the national exchequer. The amount
payable is graduated according to
rank, a duke having to pay \$1,600 for
each of his ducal titles. The heads
of some of the older families, where
as many as fourteen titles are occa-
sionally grouped, abandon a few titles
until enough money is saved to take
them up again, for they can always be
revived on payment of the fees. Gran-
dees of Spain have to pay \$3,200
for their dignity, and as they number
close to 300 their contributions make
a useful addition to the national reve-
nue.—London Mail.

Old Folks' Livers
need an occasional stirring up to keep them from being
constipated, bilious and generally run down. At the same
time, the laxative must not be so violent as to shock the system
and cause sinking and sickness.

Nature's Remedy
REG. U.S. PAT. OFFICE
NR-TABLETS-NR
is the ideal treatment for old folks' Livers—never fails to act, yet
never shocks. A tonic as well as a laxative. Best for con-
stipation, rheumatism, biliousness—any and all troubles of
liver, stomach and bowels. Take an NR tablet to-
night—you'll feel better in the morning.

MUSIC AND DRAMA

"Human Hearts"

The forthcoming visit of "Human
Hearts" will no doubt be warmly wel-
comed by the lovers of all that is
good in melodrama. The author be-
long to that all too small group of
dramatists, who understand how to
reach the heart and hold the atten-
tion of an audience. In "Human
Hearts" he has constructed a play
that will never grow old. The prin-
cipal theme of the play is "Hope,"
and has not some author written,
"Hope springs eternal in the human
breast." "Hope," the one bright ray
of sunshine that breaks through and
illuminates the clouds of despair that
almost overwhelms poor Tom Logan;
the "Hope" of a good, pure woman's
love; the "Hope" of brighter days;
the "Hope" of an honest man un-
justly accused of crime, that the
criminal will be detected and his
good name restored. The comedy
element is introduced in such a way
that it becomes relevant to the story,
and the climaxes are worked out nat-
urally and logically.
"Human Hearts" will be seen at
the opera house October 2d.

LOERCH NEWS

Mr. and Mrs. E. W. Dunn are mov-
ing to their new home in Brainerd
which they recently purchased. On
Saturday night a number of friends
gathered at their home south of
Loerch and gave them a farewell
surprise. They enjoyed a very pleas-
ant evening and presented Mr. and
Mrs. Dunn with a handsome silver
spoon.

Threshing is now in full blast in
this vicinity.

They are still drilling for iron at
the Herman Dullum place and ac-
cording to all reports, are getting
some good stuff.

The Loerch depot is now open day
and night, three operators are on
duty during the wheat rush.

Thorough.

The New Cook—I'm thot sorry, mum
but I clean forgot to take the turkey
out of the oven. Mistress (four to
dinner in fifteen minutes)—Is it burnt?
The New Cook—Is it burnt! I give
you my word, mum, it's a heap of
ashes!—Woman's Home Companion.

your property with

SMITH BROS.
Sleeper Block

The real test is in the baking.

Other Baking Powders may make broad claims, but when it comes to the production of real delicious biscuit, cakes and pastry

CALUMET

BAKING POWDER

proves its real worth. This is because of its much greater leavening power and the strict purity of its ingredients.

It costs only a trifle more than the cheap and big can brands and much less than the Trust Baking Powders.

Received Highest Award
World's Pure Food Exposition
Chicago, 1907.

Descendants of David.

The history of the Sassoons is one of the most dramatic in the very dramatic story of the Hebrew race. The original Sassoon was a Bombay merchant, but the family is descended from a group known as Ibn Shoshan, who at one time held the position of nassir of Toledo. The name Shoshan, which signifies "lily" in Hebrew, was gradually transformed into Sassoon, signifying "gladness." The family claim Davidic descent, and Abraham Sassoon, who flourished in the seventeenth century, stated that he was a direct descendant of Shephatiah, the fifth son of David. Not only are there many references to the name in Hebrew mediaeval literature, but mention of it is made in the Talmud.—London M. A. P.

He Met Marco Spada.

M. de Villemessant, the founder of the Paris Figaro, being insulted daily in a Belgian paper by a writer whose nom de plume was "Marco Spada," took the train to Brussels, with two friends and a pair of swords. On his arrival he wrote to "Marco Spada" that at 2 p. m. sharp he should call on him to arrange an encounter. On the stroke of 2 M. de Villemessant appeared at the editorial office and asked for "Marco Spada." What was his amazement on seeing an old lady, all wrinkled and with curls above her ears, appear from behind a small window and on hearing the reply, "I am 'Marco Spada,' sir, and am at your orders."

SPOTS

No matter from what source they come, if you have a skirt, jacket, a dainty waist, piece of lace, embroidery or linen, or some other article of value, we can clean it for you, removing the spot or stain entirely. The cost is a mere trifle and you again have the use of the article you thought you could no longer use.

MINNEAPOLIS, MINN.

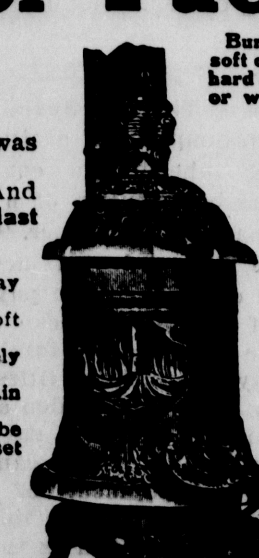

You Who Spend Twice for Fuel What You Should

We'll save you a third or half your fuel bill this season if you will listen to reason. If it was \$30.00 last winter, how would \$15.00 sound for this year?

Remember, we guarantee to save a third the fuel—proper use will save at least half. And just stop to think—the amount saved in fuel will pay the cost of the stove—Cole's Hot Blast saves its cost and over. Will we guarantee this? Yes! We guarantee:

- 1—A saving of one-third in fuel over any lower draft stove of the same size, with soft coal, slack or lignite.
- 2—That Cole's Hot Blast will use less hard coal for heating a given space than any base burner made with same size fire pot.
- 3—That the rooms can be heated from one to two hours each morning with the soft coal or hard coal put in the stove the evening before.
- 4—That the stove will hold fire with soft coal from Saturday night until Monday morning.
- 5—A uniform heat day and night, with soft coal, hard coal or lignite.
- 6—That every stove will remain absolutely air-tight as long as used.
- 7—That the feed-door is and will remain smoke and dust-proof.

All we ask is that the stove shall be operated according to directions and set up with a good flue.

Cole's Hot Blast \$12 up

PITTSBURG WINS PENNANT

Cinches the Flag in the National League.

Pittsburg, Sept. 29.—The Pittsburg baseball club clinched the 1909 pennant of the National League. Although the local team was defeated by New York, by a score of 13 to 9, Philadelphia's victory over Chicago assured the pennant for the Pittsburg club. Should Chicago win every game from now until the close of the season and Pittsburg lose every game it plays, the local team would still be in the lead at the close of the season by half a game. The scores follow:

At Pittsburg, 9; New York, 13.
At Chicago, 2; Philadelphia, 2.
At Cincinnati, 1; Brooklyn, 4—eleven innings.
At St. Louis, 1; Boston, 2. Second game—St. Louis, 7; Boston, 3.

Western League.

Des Moines won the Western league pennant by its victory over Lincoln, 5 to 3. In order for Des Moines to win the pennant, however, it was necessary for Sioux City to drop two games to Omaha, which it did. The flag goes to Des Moines by a margin of two points, the closest pennant race in the history of the Western league. Des Moines' percentage is .612, Sioux City .610, Omaha .553, Topeka .510, Denver .460, Wichita .464, Lincoln .403, and Pueblo .385. The final games resulted as follows:

At Des Moines, 5; Lincoln, 3.
At Topeka, 9; Denver, 8. Second game—Topeka, 2; Denver, 1—five innings.
At Wichita, 7; Pueblo, 3. Second game—Wichita, 1; Pueblo, 5—seven innings.
At Omaha, 6; Sioux City, 2. Second game—Omaha, 7; Sioux City, 5—seven innings; called at dark.

American League.

At New York, 0; Detroit, 5.
At Washington, 1; Chicago, 5.
At Philadelphia, 7; Cleveland, 0.

AGAINST GENERAL GRANT

W. R. Michaelis Protests to the Secretary of War.

Chicago, Sept. 29.—Protest against the appearance of General Frederick D. Grant in the uniform of his rank in the United States army in the temperance parade in this city last Saturday was made in a letter sent to Secretary of War Dickinson, by W. R. Michaelis of the executive board of the United Societies for Local Self-Government.

Mr. Michaelis has asked if there is any rule of the war department gov-

GENERAL GRANT.

erning such an appearance and requests that the reply be in the form of an open letter.

"The letter was not written as an officer of the United Societies," said Mr. Michaelis. "I wrote as a private citizen."

Several letters taking a contrary stand to that of Mr. Michaelis also have been sent to the secretary of war. These are from gentlemen who approve of the action of General Grant and defend his appearance in the parade. They claim that the parade was not a "prohibition parade," but was a "movement for great civic righteousness and the enforcement of law and order in Chicago."

Langford Defeats the Dixie Kid.

Boston, Sept. 29.—Sam Langford of Boston took five rounds to defeat the Dixie Kid of California at the Armory Athletic association. In the fifth round Langford sent his man to the floor once and as the bell rang drove him in a heap into his corner with a heavy body blow. The Kid's seconds then threw up the sponge.

HUNTING ROCK HARES.

A Fleet Little Animal Found Among the Sand Hills of Arabia.

How long the Arab has inhabited the deserts of the near east is a much discussed question. How long he has indulged in the old time sport of falconry it is equally difficult to say. Sure it is that this keen blooded race has not lived all these centuries in those sun scorched wastes without some sort of recreation, and his delights today are probably much the same as those of his ancestors a couple of thousand years ago.

Curious to see what natural sport these barren regions could afford, the writer accepted an invitation to join a party of Syrian Arabs for a week's hunting. Our quarry was the rock hare, an animal about the size of an English rabbit, but with very fine developed ears, which frequents these deserts in small numbers, living on what scanty herbage it can find.

We started straight away in search of it by forming a chain about a quarter of a mile long and drawing like tracts of desert in long semicircular sweeps. The herbage was very scant indeed. These sand hills, being scorched by a tropical sun and having a yearly rainfall of only some three inches, support but few plants of any kind. I noticed a few insectivorous birds pursuing their prey with keen voracity, as though they found it hard to make a living, but saw no trace of wild animals.

On we marched in silent order, merely following the lead of our falcon bearer, whose face seemed inviolable, his manner unmoved. Hours passed by. It was now 11 o'clock. The sun was hot above us, drying up our parched lips. I began to think that rock hares must be a myth when suddenly the hound leaped forward with a great bound, our horses instinctively following at full gallop. But we had not far to go. It was only a "garbour." The hound was soon up to it, and I thought it was all over; but, no—the little creature leaped, as it were, right out of his mouth.

One spring brought the greyhound alongside again, but again this agile quadruped had slipped out of the grasp of his sharp teeth. The speed of the tiny thing was so great and its actions so sudden that it was as much as the eye could do to follow it at all. Again its great pursuer sprang upon it; again this nimble animal slipped from his very jaws. But it was no good. It was outclassed in size. These great leaps shook the very life breath from its frail body.

At last it fell an easy prey to its relentless enemy, and one crunch put an end to its miseries. It was an interesting little beast, its body about the size of a rat. It carried a fine long coat, was gray on the back, with white under the belly, having a long bony tail with a pretty tuft at the end. But its hind legs were its great feature. They were very long, being, like those of the kangaroo, specially adapted for jumping. I noted, too, that each hind foot was provided with only three toes, whereas on those of the fore legs, which were very short, there were the normal five. Altogether it was a most interesting and sporting specimen.—"Near East."

Iowa Man a Suicide.

Mason City, Ia., Sept. 29.—George Johnson, an old and popular resident of Rockford, committed suicide by shooting. He was unmarried.

STATEMENT OF EXPLORER PEARY

Ready for Submission to the Arctic Club.

AFTER BEING PASSED UPON

Material Which Naval Officer Will Produce to Support His Contention That Dr. Cook Did Not Reach the North Pole Will Be Made Public. Harry Whitney Believes Brooklyn Man Did Discover the Pole.

Bar Harbor, Me., Sept. 29.—The material which Commander Robert E. Peary will produce to support his contention that Dr. Frederick A. Cook did not reach the North pole is now in complete form. As soon as it has been passed upon by the Peary Arctic club it will be made public. General Hubbard, president of the club, and Commander Peary have concluded their conference on the subject and the explorer soon will return to his home on Eagle island.

The papers which are to play such an important part in the Cook controversy are to be only the opening guns in the campaign which Commander Peary will wage on Dr. Cook. It is intimated that Commander Peary has yet other information to prove his contention, but he thinks it will be unnecessary to make it public at this time. Although there has been no definite statement as to the exact date when the proofs will be known, it is announced that General Hubbard is planning to call a meeting of the Peary Arctic club in New York next week.

Commander Peary's forthcoming contribution to the controversy is rather voluminous, but has been prepared with the idea that it should be readily understood by the lay mind. General Hubbard said:

"The statement has been prepared and will be submitted to the club. I do not feel competent to say whether the club will approve of it exactly in its present form. There will be no considerable changes, however. Some expressions may be altered in phraseology, but that is all. Of course no one can take from or add to the facts. 'The statement will simply contain facts in their proper order and will contain no arguments, except as the bare statement of the fact itself constitutes an argument.'"

General Hubbard said that he would not pass any individual opinion on the question, but that the club would do that as a body. Then glancing at Commander Peary, who smiled in answer, General Hubbard added:

"I do not care to go on record as saying that the statement will prove that Dr. Cook did not reach the pole. That is a matter for the public to judge. I can say that Peary's statements of the facts are true."

COOK FOUND NORTH POLE

Such is the Belief of Harry Whitney of New Haven.

St. Johns, N. F., Sept. 29.—Harry Whitney of New Haven believes that Dr. Frederick A. Cook found the pole and that Commander Peary did the same. In expressing this belief Mr. Whitney said he knows no reason for doubting Cook more than Peary.

"Dr. Cook's story," he added, "seems to me truthful and probable. Nothing else would explain his twelve months' absence."

The schooner Jeanie arrived here with Mr. Whitney aboard, coming from the Greenland coast by way of Indian Harbor, Labrador. Mr. Whitney feels keenly the position in which he is placed. He went north, he said, merely on a hunting trip, and now finds himself in the storm center of a polar controversy. Dr. Cook left with him at Annotok several cases containing instruments, some other belongings, but so far as Mr. Whitney knew, no written records. There may have been records, however, packed with Dr. Cook's personal effects, but the explorer did not tell him especially that he was leaving written records in his possession.

Speaking of Dr. Cook's detailed accounts of his trip to the pole, Mr. Whitney said that the explorer showed him how the Western drift of the ice had landed him in a region far remote from the point he expected to reach and he was unable to get back. He could not speak with authority as to whether Dr. Cook and his two Eskimos could carry on their three sledges enough food for their journey to the pole, as he himself is a novice in Arctic traveling. He declared he knew nothing of the controversy beyond the vaguest details. The first he learned of it was at Indian Harbor, when he received messages from several American papers asking for a statement. These he answered briefly.

Mr. Whitney denied that Commander Peary had removed Dr. Cook's stores from Annotok to Etah. What Peary really did was to transfer a few things and rebuild the house at Annotok.

Boatswain Murphy's only reason for refusing to help Captain Bernier's Canadian expedition to get dogs and sledges at Etah was that they were short of dogs themselves.

Mr. Whitney left for Sydney and will proceed from that point to Bos-

ton. He received messages from Commander Peary complaining that he had not fully informed the commander about the nature of Dr. Cook's belongings left with Whitney at Etah. Mr. Whitney says that Commander Peary is in error, as he informed him fully and Captain Robert Bartlett of the Roosevelt saw all the things, as he helped Mr. Whitney to bury them at Etah after Peary had refused to take them aboard his vessel.

COOK APPROVES STATEMENT

Says That of Harry Whitney Is Substantially Correct.

New York, Sept. 29.—Dr. Cook, when shown Mr. Whitney's statement, said that he approved of all that Mr. Whitney had said.

"Everything in the interview is substantially correct," said Dr. Cook. "It confirms all my declarations."

With reference to the written instructions given to Murphy, the boatswain, by Commander Peary, Dr. Cook said:

"The written instructions handed to the illiterate boatswain, Murphy, were worded very ambiguously, as Mr. Whitney affirms; but I will not comment on them now. Let Mr. Peary publish them."

Concerning the papers left with Mr. Whitney, Mr. Cook said:

"Mr. Whitney was in all probability unaware of the written records being left with him. They are not of much consequence, as I have duplicates. As to the instruments, his statements are correct. There was a sextant and an artificial horizon and the third case contained two compasses. I have the watch chronometer here."

"The whole story as to my not going far north is based on the reply I gave to Murphy when he asked me one day: 'Have you been farther than 87 north?' I answered: 'Yes, much farther north.' But I gave no other information to Murphy and Mr. Whitney stuck to the original idea and would not let Murphy know."

"The Eskimos did the same. They had promised me not to disclose what I had done."

SEEING NEW YORK AIRSHIP

Expects to Carry Passengers Over Town From an Aeronautic Show.

Glenn Curtiss' flying machine will be exhibited at the first annual aeronautic show at Madison Square Garden, in New York city, during the Hudson-Fulton celebration week. It will not be the same aeroplane used by Mr. Curtiss when he won the world's championship cup at Rheims, but a new one and a duplicate of the one Curtiss will soon use in his flights over the city.

One of the features of the show, it was said, will be a "seeing New York" airship, which will leave the roof garden at Madison Square Garden and carry passengers over the city, making several trips daily. This airship was originally intended to compete with Curtiss, Wilbur Wright and other aviators, but the conditions of the contest were objectionable to the builders, and an arrangement has been entered into whereby passengers will be carried over the city. This will be the first time that an airship has been used for this purpose, and many bookings have been made for trips.

The airship to carry people around New York will be known as the American Eagle. It has a capacity of 3,300 cubic feet of gas and is a huge dirigible with a car eighty feet long, seating fifteen persons. It will be operated by Joel T. Rice of Hot Springs, Ark., president of the Hot Springs Airship company, and John R. Riggs, both noted "sky pilots."

GRAIN AND PROVISION PRICES

Minneapolis Wheat.

Minneapolis, Sept. 28.—Wheat—Sept., 99½¢; Dec., 99½¢; May, \$1.02½; @1.02½. On track—No. 1 hard, \$1.02½; No. 1 Northern, \$1.01½; No. 2 Northern, 99½¢; No. 3 spring, 97½¢ @ 99½¢.

St. Paul Live Stock.

St. Paul, Sept. 28.—Cattle—Good to choice steers, \$6.75 @ 7.50; fair to good \$5.00 @ 6.75; good to choice cows and heifers, \$4.25 @ 5.25; veals, \$5.50 @ 7.00. Hogs—\$7.70 @ 8.15. Sheep—Wethers, \$4.50 @ 4.60; yearlings, \$5.25 @ 5.50; spring lambs, \$6.00 @ 6.90.

Teeth Put to Many Uses.

All Eskimos have good teeth, but they are subjected to severe usage being used for pinchers, vises and filing machines. The teeth are employed in drawing bolts, untying knots, holding the mouthpiece of drill, shaping boot soles and stretching and tanning skins. When they become uneven from hard usage they are leveled off with a file or wheel stone.

WANTS

Notices under this head will be charged for at the rate of one cent a word for the first insertion and one half a cent a word for each subsequent insertion, strictly cash in advance, but no ad will be taken for less than fifteen cents.

WANTED—Girl at Ransford hotel. Good wages. 100t.
